

UCSF Benioff Children's Hospital Outreach Program Presents:

High Risk Obstetric Nursing Care

Tuesday November 17th, 2015

Registration 8:15 am, Program 8:30 am-3:00 pm

Speaker: Valerie Huwe RNC-OB, MS, CNS

Identifying Maternal Early Warning Signs (MEOWS)

Upon completion of this program the participant will be able to:

- Identify specific vital signs and blood loss parameters that are warning signs of impending maternal decline
- Emphasize the importance of clinical assessment and communication to heighten perinatal staff awareness
- Explore experiences from perinatal nurses when caring for women who have unexpected decompensation
- List care giver strategies that promote healthy coping when childbirth involves severe morbidity or death

Improving Obstetric Triage

Upon completion of this program the participant will be able to:

- Review perinatal triage including definitions and goals
- Compare and contrast medical-legal implications of telephone and out-patient triage care
- Determine the "right time" for a woman to transition from her home to the hospital for birth
- Describe how the anticipatory care provided by the obstetric triage nurse can prevent a complication from becoming a crisis

Understanding and Caring for the Obese Woman During Childbirth

Upon completion of this program the participant will be able to:

- Identify the prevalence of obesity in US adults, childbearing women, and children
- Discuss impact of obesity on maternal health complications and associated neonatal risks
- Explore the physical challenges nurses face when caring for an obese woman during childbirth
- Highlight ways to provide: evidence based, high quality, and safe care for obese women
