

# Substance Use and the Mother-Infant Dyad

Presented by:

The UCSF Benioff Children's Hospital Outreach Program

**Tuesday, March 27th, 2018, 8:15 a.m. to 3:00 p.m.**

Hosted by Zuckerberg San Francisco General Hospital

**This 6 hour symposium will examine many of the social, mental, and community factors that surround substance use. Highlights will include guidelines, treatment and management strategies for the mother/ infant dyad.**

**Direct care nurses face psychosocial challenges when caring for these families. Class participants will come away with greater insight surrounding this national epidemic, care-giver strategies aimed to avoid stigma, nurse burn-out, and hopefulness to improve family health.**

## **Objectives:**

**At the conclusion of this program, participants will be able to:**

- Explore how the history of addiction, patient perspectives, and life experience impact childbearing women
- Review the maternal-fetal effects of substance use in pregnancy
- Identify the characteristics, withdrawal issues, and treatment recommendations for infants with Neonatal Abstinence Syndrome

**Location:** 1001 Potrero Ave, San Francisco, CA in Classroom HG904 a/b
