

The UCSF Benioff Children's Hospital Outreach Program Presents:

Postpartum Nursing Care Review

Thursday March 31st, 2016

8:15 am to 3:00 pm

Normal Postpartum Care and Common Complications

Speaker: Tekoa King CNM, MPH

Upon completion of this program the participant will be able to:

- Review the normal physiologic changes that occur postpartum and corresponding physical symptoms
- Discuss best-practices for nursing care in the immediate postpartum period
- Review signs, symptoms and management of common postpartum complications such as urinary retention, pain, and endometritis

Postpartum Hemorrhage (PPH)

Speaker: Valerie Huwe RNC-OB, MS, CNS

Upon completion of this program the participant will be able to:

- Briefly review physiologic changes of pregnancy that affect the pathophysiology of maternal hemorrhage
- Examine selected case presentations including lab values
- Explore the various treatment options for women with PPH including medications
- Incorporate a multidisciplinary plan of care to optimize care for women with PPH

Postpartum Emergencies: Eclampsia, Pulmonary & Amniotic Embolus & Cardiovascular Collapse

Speaker: Valerie Huwe RNC-OB, MS, CNS

Upon completion of this program the participant will be able to:

- Highlight abnormal conditions that contribute to the severity of postpartum emergencies
- Describe the immediate nursing interventions for women with: eclampsia, pulmonary embolism, amniotic fluid embolism, and cardiovascular collapse
- Incorporate a multidisciplinary plan of care to optimize care for women with postpartum emergencies
