

The UCSF Benioff Children's Hospital San Francisco Outreach Program Presents:

High Risk Perinatal Nursing Care

Wednesday March 2nd, 2016 8 am–3 pm

Hosted by: Dameron Hospital

Perinatal Core Measures

Speaker: Valerie Huwe RNC-OB, MS, CNS

Upon completion of this program the participant will be able to:

- Cite the five perinatal core measures endorsed by The Joint Commission
- Identify perinatal outcome measures that are nursing sensitive
- Review evidence based nursing interventions that enhance quality and provide safety for hospitalized women and infants

Using Optimality as a Framework for Labor

Speaker: Valerie Huwe RNC-OB, MS, CNS

Upon completion of this program the participant will be able to:

- Examine how cultural influences such as technology and the media shape women's attitudes about labor and birth.
- Explore the evidence in support of physiologic birth
- Incorporate optimality measures as a metric to improve birth outcomes for women and infants.

Recognition of the Compromised Newborn

Speaker: Tanya Kamka RNC-NIC, MSN

Upon completion of this program the participant will be able to:

- Discuss maternal, fetal and intrapartum risk factors that contribute to a compromised newborn
- Describe the physiologic changes that must occur at birth for successful transition to extrauterine life
- Discuss the nursing assessments and interventions for an infant who becomes compromised
- Review case scenarios

Location: Staff Development Conf. Rooms 1 & 2 (2nd floor), 530 W. Acacia St, Stockton, CA 95203
(Across street from main hospital, directly opposite main hospital entrance).
