

UCSF's Outreach Program, in collaboration with NMC and CHOMP presents:

# High Risk Perinatal/Neonatal Nursing Care

Thursday November 5, 2015

Registration 8:15 am, Program 8:30 am-3:00 pm

## Diabetes and Pregnancy

Speaker: Molly Killion RN, MS, CNS

Upon completion of this program the participant will be able to:

- Identify specific vital signs and blood loss parameters that are warning signs of impending maternal decline
- Emphasize the importance of clinical assessment and communication to heighten perinatal staff awareness
- Explore experiences from perinatal nurses when caring for women who have unexpected decompensation
- List care giver strategies that promote healthy coping when childbirth involves severe morbidity or death

## Infant of the Diabetic Mother

Speaker: Cynthia Jensen RN, MS, CNS

Upon completion of this program the participant will be able to:

- Review the legal scope of nursing practice
- Malpractice 101: The anatomy of a malpractice suit and definition of terms
- Discuss obstetric situations in which the risk of malpractice is high
- Identify essential elements of adequate medical record documentation

## Care of the Infant with Congenital Anomalies

Speaker: Tanya Kamka RNC-NIC, MSN

Upon completion of this program the participant will be able to:

- List 2 biological adaptations of the heart in pregnancy
- Identify risks to the fetus and infant born to a mother with Idiopathic Thrombocytopenia Purpura (ITP)
- Name three causes of acute renal failure in pregnancy

Natividad Medical Center 1441 Constitution Blvd, Salinas, CA 93906. Location: SEA Room
