

The UCSF Perinatal Outreach Program Presents:

Perinatal/Neonatal Simulation

Thursday April 5, 2018 4:00 pm-8:30 pm

Location: Petaluma Valley Hospital

Simulation on OB Unit, Debrief location Med/surg Conference Room

Simulation Facilitators:

Valerie Huwe RNC-OB, MS, CNS Perinatal Outreach Educator

Tanya Kamka RNC-NIC, MSN Neonatal Outreach Educator

Program Description:

This simulation session focuses on case scenarios and allows participants to actively engage in “hands-on” skills within your department. Team performance will be enhanced and improved communication techniques will be identified. This session will include information on patient safety and emergency team response. Attendees will participate in two low fidelity in situ emergency simulations as a multidisciplinary team. The simulations will be video recorded and supportive, confidential debriefing sessions will follow each simulation.

Objectives:

Upon completion of this program the participant will be able to:

- Define situational awareness and explain how it impacts team performance
- Describe a shared mental model for high functioning teams
- List four strategies for successful team communication
- Discuss strategies for follow up, including lessons learned, and use of participant feedback
