Perinatal Outreach Program

Friday February 9th, 2018 from 7:45 a.m. to 4:30 p.m.

Hosted by: Zuckerberg San Francisco General Hospital

1001 Potrero Avenue San Francisco CA, 94110

Pre-Transport/Post-Resuscitation Stabilization Care of Sick Newborns

Instructors: Tanya Kamka RNC-NIC, MSN and Cynthia Jensen RN, MS, CNS

Course Description:

The S.T.A.B.L.E Program is a post-resuscitation/pre-transport stabilization educational and clinical tool that has been implemented throughout the U.S and in many regions worldwide.

“S.T.A.B.L.E.” stands for the six program modules: **S**ugar and Safe care, **T**emperature, **A**irway, **B**lood pressure, **L**ab work, and **E**mootional support for the family. A seventh module, Quality Improvement stresses the professional responsibility of improving and evaluating care provided to sick infants. Neonatal assessment and stabilization guidelines are offered in each module. Prevention of adverse events and delivery of safe patient care are stressed throughout the program.

The S.T.A.B.L.E Program module content is based on evidence and best practice that encompasses the process of post-resuscitation care and pre-transport neonatal stabilization.

This program is recommended for health care professionals who provide care for sick infants including, physicians, nurses, midwives, respiratory therapists, licensed practical nurses, nursing assistants, paramedics, and emergency medical technicians.
